## SKILLS | Full-stack web development with an emphasis on design

PYTHON | JAVASCRIPT | HTML | CSS | SQL | EXPRESS | NODE.JS | XML | REACT | PHOTOSHOP | DJANGO |

## EDUCATION

**Web Development Immersive**    General Assembly    2018

- Intensive web development course covering full-stack web development

**Digital Humanities MA**    University College London    2015 – 2017

- Masters' Thesis: Digital Interactive Technologies in Museum Exhibitions and Education
- Interdisciplinary program teaching programming and digital tools for use in humanities fields

**Anthropology BA**    George Washington University    2008 – 2012

## PROJECTS

**Break-In at the Museum!** | HTML, CSS, and JS educational game

- Players collect misplaced and damaged artifacts, learn their history, and solve a riddle to find a hidden artifact

**Auctave Auction Management** | NodeJS and Express app for managing nonprofit fundraising events

- Users can record donor, donation, and bidder information, assign items to winning bidders, and export reports via Google Sheets

**Who Gets the Internet?** | Django informational site visualizing broadband access across US counties

- Uses a python script to pull internet speed data from a government API and store it in a SQL database
- Displays internet facts, a county-level US map, and a county comparison tool for visitors to experiment with

## WORK EXPERIENCE

**Office Manager** | Tibbetts United Methodist Church, Seattle | December 2017 – May 2018

- Designed and created custom programs and powerpoints for worship services and events
- Worked with volunteers and employees to plan and execute events
